

New QUADRO DLV 998 Hood.

The quietest: 37dB.

When silence and elegance come together the result cannot be anything other than Teka's new **Quadro** hood. A model that gets the highest marks in design but also in low energy consumption and, above all, in silence.

► **TOUCH CONTROL panels:**
An elegant, advanced touch control panel to obtain maximum precision in each of its functions. Serigraphy and digital display in white, the color that best combines with any kitchen.

► **ECOPOWER motor:**
The eco-friendly motor of Teka's hoods. Maximum absorption capacity with the lowest power consumption (27 Kwh/year). Really quiet.

► **So easy to clean:**
The filter saturation indicator light warns you when it is time to clean them. Easy to disassemble, the filters can be washed in the dishwasher.

► **CONTOUR perimeter aspiration system:**
Renews the air in your kitchen 27* times every hour, keeping the atmosphere clean and odour-free. It has programmable aspiration time and a selected speed indicator.

► **LED lighting strip:**
More light and maximum duration with minimum electricity consumption.

37
dB

Extremely SILENT:

You will almost forget that this hood is on. Its 37dB noise level is equivalent to conversation volume. You will barely hear it.

A++
ECO

A++ Energy Efficiency: Minimum consumption

Only a brand such as Teka is able to obtain the highest energy rating. Saves 50% more than A class and 75% more than D class. A daily savings you will notice!

(*) *This figure is having in account a 20m² Kitchen

NEW QUADRO DLV 998 HOOD.

THE QUIETEST HOOD, WITH THE LOWEST CONSUMPTION AND VERY EASY TO CLEAN.
