A REAL HOME

# iKNOB: the most advanced concept in precision.

At Teka we want to surprise you again. This time, with the design and technology of the new **iKNOB** induction hob. It was designed so that you can enjoy its incredible convenience and intelligent innovation. Minimum consumption, easy to use and easier to clean.

Its removable magnetic knob gives it personality and distinction, as well as a level of precision you have never seen before.

**iKNOB** is the hob for those who want to go one step further in their kitchen.

## **SAFETY Lock Function:**

Upon activation it blocks the control panel, avoiding anyone accidentally modifying the cooking process. Just press it to unlock it again.

## **STOP & GO Function:**

Allows you to pause the cooking process without having to turn the hob off. Upon reactivation it automatically restores all of the selected functions.

## **POWER PLUS Function:**

If you need to sear meat or quickly bring something to a boil, this function gives you extra power in the selected zone when you need it most. 10 minutes of maximum intensity in one or various zones.

## **KEEP WARM Function:**

An intelligent cooking zone control that maintains the minimum temperature necessary for keeping food warm.

## **iKNOB TOUCH CONTROL:**

The heart of the hob. A completely removable magnetic knob that controls every function with incredible precision. When it is removed it blocks the hob and facilitates cleaning. Maximum innovation and design.

## **New SERIGRAPHY:**

Cleaner and more precise, for easier reading and hob use.

## **Special PAELLA PAN zone:**

An extra-large 30 cm area for cooking rice for up to 10 people.

## **INVISIBLE control panel:**

Its backlit LEDs are activated by pressing the "on" sensor on the unmistakable central knob.

## **New SLIM METALLIC FRAME:**

An elegant design feature that also protects the hob from possible knocks.
